

Clip MedicineCard – Present to Pharmacy – Save Money!

Our Prescription Assistance Programs Have Saved Cardholders Over \$2.5M!

Anyone can use the **MedicineCard**, regardless of residency, income level, insurance status, or pre-existing conditions - even people visiting from other countries can use the card!

How does this work? Studies have shown that as many as 30% of all prescriptions written go unfilled – many for financial reasons. **Pharmacies make NOTHING when prescriptions don't get filled!** They offer these discounts to help customers to be able to get the prescriptions they need. To get prescription discounts, present the pre-activated **MedicineCard** (above) to the pharmacy and receive savings for you, your family, even your pets. **It's that simple.**

Where can I use this card? The **MedicineCard** is accepted at over 58,000 participating pharmacies nationwide, including AK, HI, Puerto Rico, & Guam, including all major chains, and many smaller regional and independent pharmacies, such as:

- | | | |
|--------------|--------------|-------------------|
| ✓ Walgreen's | ✓ Rite Aid | ✓ Publix |
| ✓ Walmart | ✓ Kmart | ✓ Duane Reade |
| ✓ Target | ✓ Sam's Club | ✓ Kroger |
| ✓ Winn-Dixie | ✓ Osco | ✓ Fred's Pharmacy |

Who needs this card? Everyone! More people are without prescription benefits today than ever before. And those with prescription insurance are finding that their insurance covers less and less each passing day. The **MedicineCard** is designed to help remove economic barriers that keep people from getting the medications they need to regain, or keep, their health.

I already have insurance – do I still need the MedicineCard? Yes. Use this card to get discounts on prescription medications that aren't covered by your prescription plan; when working to meet a high deductible; with Health Savings Accounts (HSA); or to get lower prices on high co-pays.

How much money can I save? The **MedicineCard** saves as much as 75% off prescription medications depending on the prescription being filled. On average, cards produce a lower prescription price than the pharmacy's regular price, 8 out of 10 times.

Attention Medical & Social Service Organizations: Provide **MedicineCards** to your audience to help improve medication adherence rates in your community. Please request additional complimentary cards by calling 1-855-228-7379, or by visiting our website www.MedicineCard.org. Cards will be sent out to you, at no-charge, by U.S. mail.
